white book Future planning

Founder: Shiba Iun

date: 2023.3.16

prime

01

团队的组建

Team building

02

社区的完善

Community improvement

03

建立外部沟通

External communication

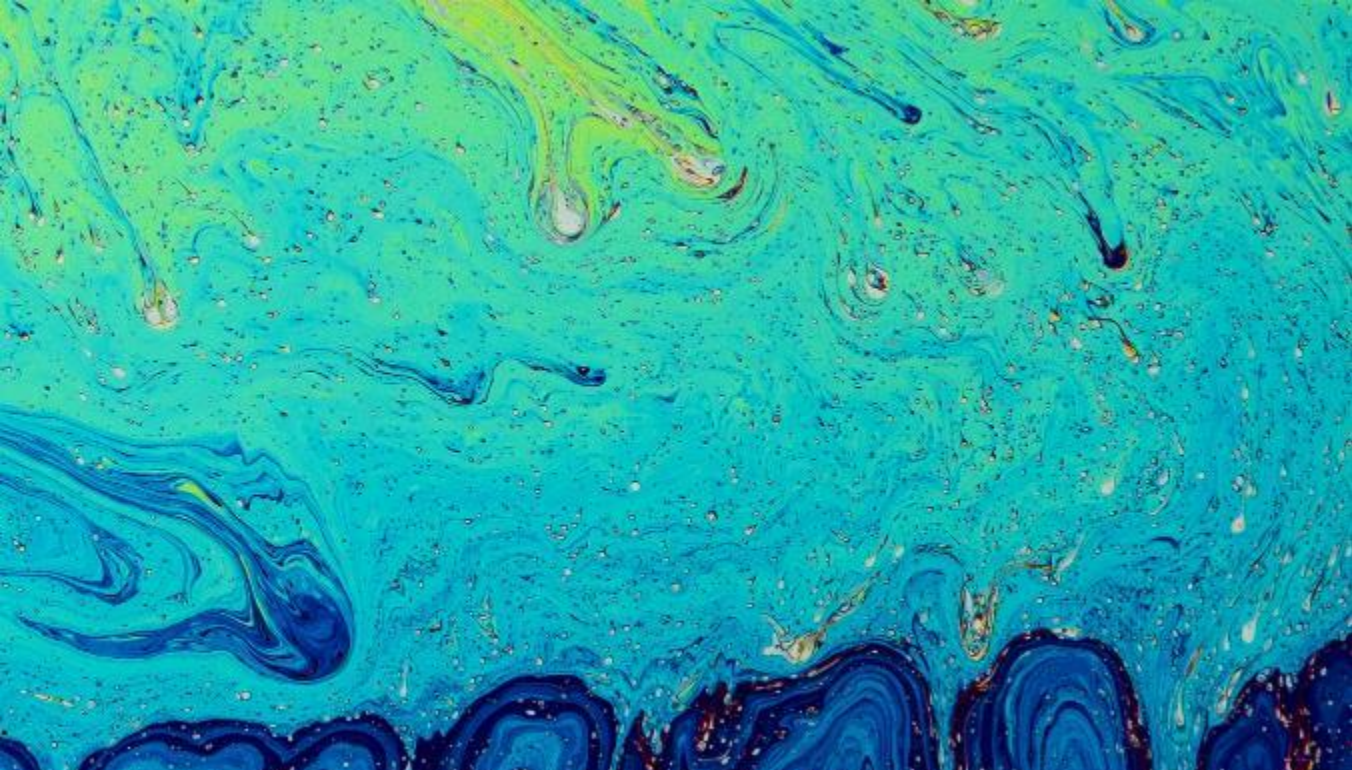

04

代币发行

Token Issuance

01

Current stage

Everyone is a part of
the project, which is
the original intention

Token introduction

BabyShib is a fair and fair MEME coin. It is tax-free. After the issuance of Token, the contract authority is directly thrown into the black hole, which cannot be tampered with. The security is 100%, and the liquidity is also locked. We refuse to pay high taxes for the loss of one in and one out

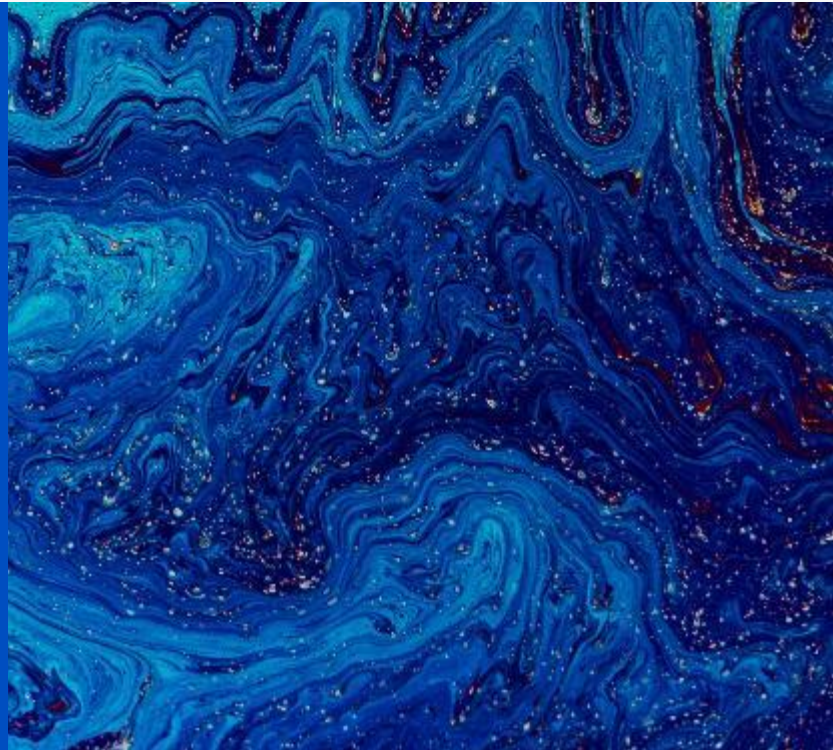

Total amount of tokens 1000T

Token allocation

100% liquidity, everyone must buy,
including the founder

You don't have to worry about his
potential because he's just born

Applied for listing platform

1

非小号

It is a platform with tens of millions of users, mainly in China, Japan and South Korea

2

Alcoin

This is a search platform dominated by Hong Kong, China

3

MyToken

This is a global blockchain platform. It is similar to blockchain encyclopedia, and its beneficiaries are distributed around the world

4

Moontok

All blockchain project collection sites have daily visits of hundreds of thousands to millions

5

CoinMarketCap

Apply for listing, but fail to meet the specified liquidity and trading volume requirements

6

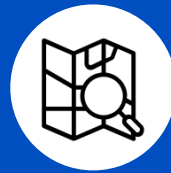

CoinGecko

Apply for listing, but fail to meet the specified liquidity and trading volume requirements

Listing arrangements

When the liquidity reaches 150BNB,
CoinGecko
will be listed

When the liquidity reaches 250BNB,
imToken
will be listed

When the liquidity reaches 200BNB,
CoinMarketCap
will be listed

When the liquidity reaches 300BNB,
Trust Wallet
will be listed

02

NFT development

Each is unique
Issuance and listing of
multiple platforms

High quality painting
skills, pure handmade
painting

Multiple types,
multiple styles

Build, become the next
APE, circulate the world's
famous NFT

05

A solid blue horizontal bar is positioned below the number '05', partially obscuring the bottom of the '0'.

Game development

Card map, virtual land game

The card is upgraded and synthesized, and BabyShib token rewards can be activated if it is successful

The sale and exchange of goods, as well as the auction and transfer of land parcels

Metacosmic concept, country, territory, universe, science and technology and other development paths

You will have a home of your own in the game. You can love, develop and trade freely

06

Blockchain development

Build blockchain browser,
and your BabyShib will be
operated as absenteeism
fee

BabyShib's Swap and
Dapp can pledge, trade,
finance, NFT, listing,
whitelist, and other
contents

Settle in BabyShib
blockchain

The underlying code is open.
As an open source project,
any developer can participate
in improving the blockchain.
BabyShib will be used as the
main token, similar to BNB

THANK YOU!

The above is the future development and planning of (BabyShib)
